

FLEET SAFETY POLICY STATEMENT

IRCH/TMCH Management is committed to providing and maintaining a safe and efficient fleet for all employees, contractors, subcontractors and visitors to our site. This is achieved through risk and fleet management, consultation with workers and continuous improvement. IRCH/TMCH is committed to:

- Considering safety features when selecting fleet vehicles
- Completing a change management process when purchasing a new or modifying an existing fleet vehicle.
- The training and supervision of workers including providing information and resources
- Defining responsibilities for everyone in the fleet management process
- Complying with transport legislation, codes of practice and standard operating procedures
- Outlining expectations in relation to safe driving requirements
- Reporting, recording and investigating of incidents and collating information to assist with trend analysis
- Maintain a Safe Driving Policy

Each employee of IRCH/TMCH is expected to:

- Drive safely and within the legal speed limit at all times
- Comply with the IRCH/TMCH Safe Driving Policy
- Participate in formal driver performance assessments
- Participate in IRCH/TMCH's Maintenance Management Plan, which is based on preventative maintenance
- Contribute to journey management and scheduling
- Provide feedback and participate in IRCH/TMCH Fleet Safety Management Plan
- Be willing to change behaviours and culture of fleet safety
