

February 2011

**NDA Engineering New Zealand**

**NDA is proud to be associated with Ian Roebuck Crane Hire Ltd.**

NDA has been using IRC for twenty five years. Ian's considerable knowledge, of the crane industry is second to none and shown every time. His companies structure/planning from the phone call, site visit, methodology, supplying the right crane, right operator and equipment required for each respective job is excellent! We will continue to use IRC for many years ahead and would highly recommend IRC on their exceptional performance.

We have used IRC for small internal precision installations.

**TOM O'CONNOR**  
**PROJECT MANAGER**

Larger Winery Installations.

To large complicated outside installations
